I'm MOHI

a web designer

Photo by Annie Spratt on Unsplash

Hello!

I am an aspiring Web designer/developer. I am currently doing my B.Tech in Electronics and Communications.

My Skills.

Web Development

I started as a hobby but now I am interested in coding, and want to learn how to combine it with my artistic side to produce a cool website. I'm still beginner and have yet to master the art of web development.

Dancing(BHANGRA)

I never knew that dancing will be fun because I was more of a singing person but with time realised dancing is actually and I love it.

Get In Touch

If you are inetersted in what I do and how I do.

We can talk more about it! I'm a freelancer and and will definitely like to have project collaborations.
